Upper Material Flexing Tester

ISO-4643, SATRA PM25, ISO 5423-1992, ISO 22288

www.WorldofTest.com/upper-material-flexing-tester

Upper Material Flexing Tester is designed for determining the flexing resistance or physical damage of all vamps, and soft materials. The specimen is tested by simulating walking. It has functions such as memory and return. Users can set the number of tests themselves.

Specifications

Fixture	40°V-shape 6.4mm (R)
Sampling	12pcs
Counter	LCD,0~999,999
Motor	DC brushless,90W
Dimension (WxDxH)	59×35 ×36cm
Weight	64 kg

Toll-Free: 1.877.884.TEST (8378) | Fax: 954.697.8211
