

EW-300SG - Densimeter

Only 10 seconds to measure

Features:

- Only 10 seconds to measure density and volume.
- Ideal machine for interval testing in a production line.

Solid Mode:

- Minimum density and volume resolution 0.01g/cm³.
- Maximum measuring range up to 300g.
- Smoother and easier operation with improved vessel that features chemical resistant Styrol technology.
- Only 10 seconds to complete a test.
- Able to measure the rate change of density.
- Results can be analyzed with Comparator mode.
- Optional Setting mode is available for unknown samples or new material development.
- Easy connection to PC with equipped RS232 interface.

Specification of Densimeter - EW-300SG Densimeter

Product Name	Densimeter EW-300SG
Resolution	0.01g/cm ³
Capacity	0.01-300g
Sample Types	Solid
Weight	1.6kg
Dimensions	(L)218 X (W)190 X (H)170mm
Accessories	Tweezers, Thermometer, 200g Calibration Weight, Steel Angle, AC Adapter, RS232 interface
